

HDI PROPOELIX™ - 7 BIOACTIVE COMPONENTS FOR HEALTH HAS BEEN OFFICIALLY IDENTIFIED

HDI Propoelix™ is the most sought-after immunity product in 2020 during the COVID-19 pandemic

Propolis is a natural resinous mixture produced by honeybees from substances collected from parts of plants. Bees gather propolis from different plants in different climatic zones. Propolis is a natural product used as a defense system in hives.

HDI PROPOELIX™ is a super-extraction of propolis performed using a unique extraction process called Continuous Multi-Stage Countercurrent Extraction (CMCE) technology. The CMCE process removes all the waxes and resins in propolis, leaving behind only the beneficial active ingredients. HDI Propoelix™ is a proprietary blend of propolis extract contains minerals such as magnesium, calcium, potassium, sodium, zinc, copper; 16 essential amino acids, contains all vitamins except Vit K. HDI Propoelix™ has abundant health benefits for different diseases since it functions as natural anti-biotic, anti-viral, anti-bacterial, anti-microbial and anti-fungal.

Biological activity or pharmacological activity describes the beneficial effects of a supplement on human. Many propolis products in the market do not have specific information on the bioactive components of their product.

HDI Propoelix™ has been tested at Intertek Food Services GmbH, Germany. Intertek has been recognized for more than 130 years, from companies around the world, to help ensure the quality and safety of their products. Intertek has presence in 1,000 locations over 100 countries, and Intertek Food Services GmbH Germany is one of the world-leading experts in the analysis of honey and hive products and offers a comprehensive service solution to the food industry, providing customers with reliable test results.

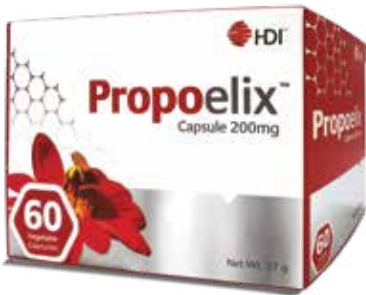

HDI Propoelix™ has been identified by Intertek Food Services GmbH, Germany to have 7 bioactive components: CAPE (Caffeic Acid Phenethyl Ester), Naringenin, Chrysin, Galangin, Cinnamic Acid, Pinocembrin and Apigenin. These 7 components confirm HDI Propoelix™ health benefits for various diseases since these bio-active components have high anti-oxidant, anti-cancer properties, hepatoprotection, anti-microbial, anti-inflammatory, anti-fungal, cardioprotective effect and anti-viral. With these beneficial properties HDI Propoelix™ is effective as an immunomodulator for both prevention and curative for various diseases.

It has been proven from our customers perspective that HDI Propoelix™ is able to not only maintain their health and increase their immune system, but also help for faster recovery from illnesses. Furthermore, our product has undergone various clinical trials including dengue and HIV/AIDS and the result have been published in medical journals.

With this identification of bioactive components of HDI Propoelix™ we are confident to expand the market internationally and we ensure that many people and families around the world obtain the benefits increasing their immune system from consuming HDI Propoelix™.

HDI PROPOELIX™ 正式被确定拥有7种保健活性成分

HDI Propoelix™ 成为了2020年新冠肺炎疫情期间最畅销的免疫保健产品

蜂胶是一种天然树脂混合物，从树皮和嫩芽采集的物质。蜜蜂会在不同气候和地区，从不同植物中采集蜂胶，用作蜂巢中的防御免疫系统。

HDI Propoelix™ 是特级蜂胶精华，采用了独特的提取技术-持续多重逆流提取技术 Continuous Multi-Stage Countercurrent Extraction (CMCE) technology。这CMCE过程能去除蜂胶里的所有蜡和树脂，留下了高效益的活性成分。HDI Propoelix™ 混合了专有的蜂胶提取物，含有矿物质，如镁、钙、钾、钠、锌、铜；16种必需的氨基酸，含有所有维生素除了维生素K。除此之外，HDI Propoelix™ 具有多种保健益处，能对抗各种不同的疾病，因为它具有天然抗生素、抗病毒、抗菌、抗微生物和抗真菌等功能。

保健品生物或药理活性的说明能清楚解释对人体的影响和益处。但市面上许多蜂胶产品都没有关于其产品的生物活性成分的具体信息。

HDI Propoelix™ 在德国Intertek进行了测试，世界规模最大的消费品测试认证公司之一。Intertek已获得来自全球公司130多年的认可，以确保其产品的质量与安全。Intertek在100多个国家拥有1,000个实验室，Intertek在蜂蜜和蜂产品分析方面是世界领先专家之一，为食品行业提供全面的服务解决方案，为客户提供可靠的测试结果。

HDI Propoelix™已被Intertek公司认定富含7种生物活性成分:CAPE(Caffeic Acid Phenethyl Ester - 咖啡酸苯乙酯)、柚皮素、白杨素、高良姜素、咖啡酸、皮诺霉素和芹菜素。这7个成分证实了HDI Propoelix™对各种疾病的保健益处，因为这些生物活性成分具有高抗氧化、抗癌、抗肝保肝、抗微生物、抗炎、抗真菌、保护心脏和抗病毒功能。凭借这些有益的特性，HDI Propoelix™ 作为预防和治疗各种疾病的免疫调节剂肯定有效。

从客户的角度来看，HDI Propoelix™不仅能够保持健康，增强免疫系统，而且有助病患者更快康复。此外，我们的产品经历了多项临床试验，包括骨痛热症和艾滋病病毒/艾滋病，试验结果已发表在医学期刊上。

通过这种对HDI Propoelix™生物活性成分的鉴定，我们绝对有信心确保世界各地的消费者从HDI Propoelix™ 获得增强免疫系统的益处。

Negative Swab Test with HDI Propoelix™

I underwent the swab test four times, on October 24, 2020, November 2, 2020, November 23, 2020, and December 10, 2020. All the results were Positive even though I adhered to the health recommendations and protocols as well as taking various kinds of vitamins and nutritious food.

I was advised by Dr. Wita to take HDI PROPOELIX™. At that time I had stopped taking other vitamins and medications. After consuming HDI PROPOELIX™ 3 times a day for 12 days, much to my amazement, on the 23 December 2020 - my 5th swab test came out Negative!

HDI PROPOELIX™ has effectively improved my immunity.

HDI Propoelix™ 让我的拭子检测呈现阴性

自2020年10月24日至2020年12月10日，我接受了四次拭子检测，每次结果都呈阳性，虽然我已努力遵守保健和消毒程序，也摄取各种维生素和营养丰富的食物。

一位医生建议我每天三次进食前服食HDI PROPOELIX™。当时我已停止服用药物和其他维生素。十二天后，在12月23日，出乎意料的，我第五次检测结果显示阴性！

HDI PROPOELIX™ 真的有效提升了我的免疫力。

Prevention is better than cure

I am a kidney patient and have to undergo dialysis twice a week. On 19 August 2020, my Rapid test result came out Covid-19 Reactive. I was immediately taken to the Covid-19 emergency room after my dialysis for a blood test, chest X-ray and another swab test. The results for the blood and thoracic test came out normal so I was allowed to go home but had to self-isolate while waiting for the result of the swab test. Luckily the result was Negative.

According to the hospital regulations, the swab test had to be done twice but I refused as I had to pay for it myself. Finally, it was agreed that I could do another rapid test after 7 days. The result was again Non-reactive. From this experience, I realized that prevention is truly important as I was already taking my HDI products especially HDI Pollenergy 520, Bee Propolis and PROPOELIX™ prior to this.

预防胜于治疗

我每周必须接受两次洗肾治疗。在2020年8月19日，我的新冠肺炎快速检测结果出现反应。透析后，我立即被带到新冠肺炎急诊室进行血液检查、胸部X光检查和拭子检测。血液和胸腔检查的结果出来正常，所以我被允许回家，但需自我隔离，直到拭子检测的结果出来。幸运的是，我的拭子检测结果呈阴性。

根据医院的规定，拭子检测必须做两次，但我拒绝了，因为要自己支付。最后，医院同意我可以在七天后，8月26日，进行另一次快速检测，结果是“无反应”。经过这次经验我意识到预防很重要，因为我服食HDI 520活力花粉，蜂胶和PROPOELIX™已有一段日子了。确实见效。
